

2022 Water & Wastewater Rates

At the February 10th, Special Budget Meeting of Council, the 2022 budget was adopted including a **5% increase of water and wastewater rates** from the previous year. This rate is based on the amount of funding needed to operate our water and wastewater systems.

Highlights:

- ❖ In addition to this increase, a **new category for small water users** was created (0 cu.m to 50 cu.m per year).
- ❖ The **rate structure has changed** from a 100% fixed charge to an 80% base charge and 20% consumption charge.
