

MUNICIPALITY OF NORTH MIDDLESEX

NOTICE OF AERIAL APPLICATION OF LARVICIDE FOR MOSQUITO CONTROL

When Weather conditions permit and continuing as required throughout the season, the Municipality of North Middlesex will be applying a biological larvicide (B.t.i) by helicopter to standing water within 2km of Parkhill, Alisa Craig, Narin and Carlisle beginning:

March 19th to September 30th, 2025

The program will utilize applications of the larvicide VectoBac 200g (PCP#18158, granular), VectoLex CG by drone or VectoBac 1200L(PCP#21062, liquid) by Ground in order to control larval mosquitoes.

If you require further information about the Mosquito Control Program, you may contact:

Kristyn Wilson

Public Works, Infrastructure and Drainage Clerk

Municipality of North Middlesex
