NORTH MIDDLESEX FIRE DEPARTMENT

The North Middlesex Fire Department is made up of 50 paid, on-call firefighters working out of the Ailsa Craig and the Parkhill fire stations. The NMFD responds to approximately 125 calls per year, ranging from working with our Paramedic partners at medical calls and motor vehicle collisions to responding to structure fires in houses, commercial establishments and barns.

Our firefighters are well-trained and maintain their skills through bi-weekly training. They come from all walks of life and all live within our community. The Municipality also purchases fire services under fire protection agreements for outlying areas and is part of the Province of Ontario Mutual Aid plan.

FIREFIGHTER RECRUITMENT

JOINING THE DEPARTMENT

This type of work or job is not for everyone. You need more than just a desire to help people and give back to your community. Your family must support your decision. They must understand and accept your commitment to training and responding to emergencies which will often interrupt family functions. Your employer will also be required to be accepting of your commitment as an on-call firefighter. Factors which your employer should be aware of may include, but are not limited to:

- Fatigue from emergency responses outside of work hours
- Responses during work hours (when permitted by your employer)
- Training that will occur from time to time during your regular work hours (when permitted by your employer)
